## PRAYER FOR PEACE

In August of 1962 an eminent world leader gave an address to his countrymen, one which really applied to all mankind. In his oration, he quoted Henry W. Longfellow's "Hiawatha." Longfellow's words masterfully expresses our deep convictions for world peace.

*Wash the warpaint from your faces,  
Wash the bloodstains from your faces,  
Bury your war clubs and your weapons,  
Break the red stone from this quarry,  
Mould and make it into peace pipes,  
Take the reeds that grow beside you,  
Deck them with your brightest feather,  
Smoke the **calumet** together,  
And as brothers live hence forward!*

Wherever there's a great deal of laughter, one can always find Judie. Despite working after school, she still finds time to be a member of the twirling squad. Dancing, tennis, and ice skating occupy her time at present, but her real interest lies in travel. Judie dreams of touring the world.

**ANTHONY G. VITALE**

Tony's future hope is to be a navy man. He is of slight build but makes up for it by being a boxing enthusiast. Scholastically, his greatest abilities lie in the sciences. Tony is a rock 'n roll enthusiast and a connoisseur of Italian food.

**MARK WALLIN**

"Wal's" greatest ambition is to travel. Rock 'n roll, cards, pool, and football take up most of his spare time. While in school, Wal finds most pleasure in his art course. As an avid baseball fan, his pet peeve is the fact that the Yanks always win.

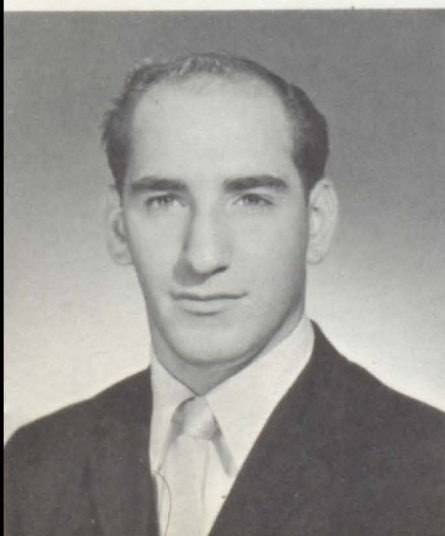

**DORIS L. WEISINGER**

Doris can be quoted as saying, "I'm going to miss Weequahic, but I'm not sorry I'm leaving." Dee is secretary of her biology and sewing classes and president of her math class. She devotes much of her time to sewing, bowling and roller-skating. Doris hopes to be a commercial artist.

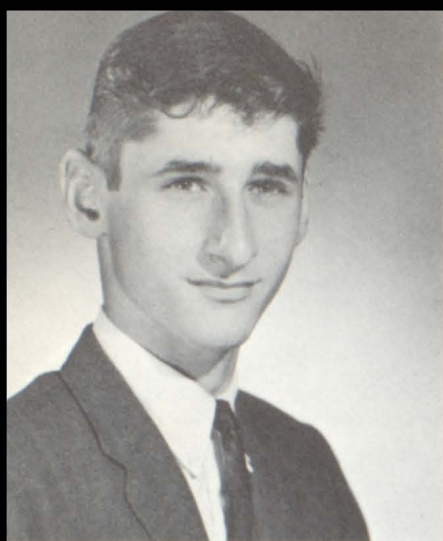

**EDDIE WALLACE**

West Side Park is an ideal place to look for Eddie, where he will be playing either baseball, basketball, or football. He relishes jazz and classical music, the Untouchables, and Hemingway. The day he passed his driving test will always be a memorable one to him. Eddie, a boy with varied tastes, favors art above all other subjects.

**ROBERT WILDERMAN**

Bob's interests include drums, drums and more drums. He has played in the band and orchestra for six terms and in the dance band for two terms. Naturally his favorite subjects are band and orchestra. Although Bob likes to play different types of music, his favorite is rock 'n roll. He also enjoys baseball and football.

**ROBERTA WILLIAMS**

Bert, as her close friends know her, spends much of her time reading, listening to records, and visiting friends. During her stay at Weequahic, she was secretary of various classes. Roberta, who is quite ambitious, often says, "To be a success you must work hard." Because of her deep interest for the sick and unfortunate she hopes to become a nurse.

**LINDA YOSKOWITZ**

Being a girl of many talents, Linda's interests vary from bowling to dancing to horseback riding. Besides being an active member of the Y, "Pinky" adores Italian food, Broadway shows, and Johnny Mathis. After graduation Linda hopes to travel throughout the country.

**SEYMOUR YOSKOWITZ**

Seymour is a sports lover. He was a member of the soccer team for three years and a participant in the 4B-4A basketball game. Seymour works at Valley Fair and in his spare time plays football near his home. His favorite subject is Hebrew with Mr. Chasen.

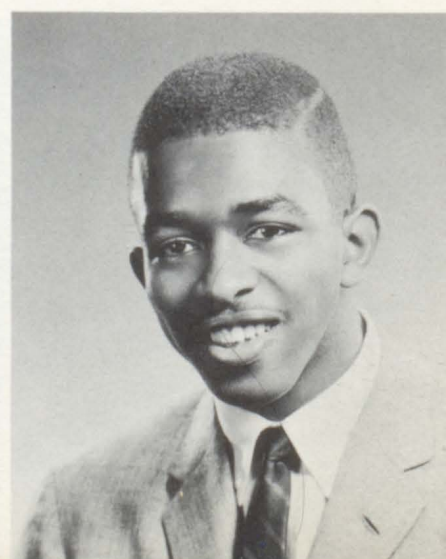

**ROGER RICHARD ROSSICS**

Roger is a newcomer to Weequahic. (That's why he's back here with the Y's.) He previously attended Sayreville High School where he was a member of their outstanding baseball team. Roger likes driving, but thinks women drivers are a menace on the road. Roger looks forward to his graduation day and has bright hopes for the future.

**RUTH W. EL**

Ruthie keeps her slim figure by participating in sports and by dancing. She was an active member of the chorus and took part in many assembly programs. Ruth also enjoys sewing. She hopes that the future will bring her happiness and success.

**JOSEPH L. SIMPSON, JR.**

Sportsminded Jose was an active participant in indoor and outdoor track, football, and swimming. Jazz, Latin, and the mambo are among his favorites. Jose's strange pet peeve is girls. He hopes to become a success someday.

## 4A Class History

We are now at a crucial point in our lives. We can look forward to what will be after graduation: college, service, or the business world. And we can look back. The past holds memories both happy and sad.

We remember that cold February morning when nervous and frightened, we opened the large door on Chancellor Avenue for the first time. We were soon joined by new classmates from the junior high schools in the city. These two years served as an orientation period for us, making new friends, and getting acclimated to the school around us.

Our junior year brought the excitement of elections. Jay Silverstein was elected president. His abilities led to his re-election for the remainder of our high school years. The other positions have been filled by various capable people.

Our first class social event was the 3B picnic; it was a huge success. South Mountain Reservation was left an absolute mess. In 3A we had our Junior Frolics, a square dance which in everyone's opinion was just great.

On a "Misty" Saturday night the 4B's gathered in the lower gymnasium for an unforgettable evening at the Hop. Farewell to you Senior A's led to our pledge — to do our very utmost to set an example of leadership and respect to the rest of the school.

Now the time has come for us to part and bid adieu. The memories of our prom, Torch Day, and graduation will be ours forever through the pages of this Legend.

# FACULTY

The Latin word education literally means "leading out of." To us it means leading out of ignorance. Who are the catalysts, the individuals who give this word meaning? They are the teachers, who through their guidance, knowledge, and ability to convey this knowledge, lead the youth of all nations out of the darkness and mystery of ignorance. The future of this generation lies in the able hands of our teachers.

# SPORTS

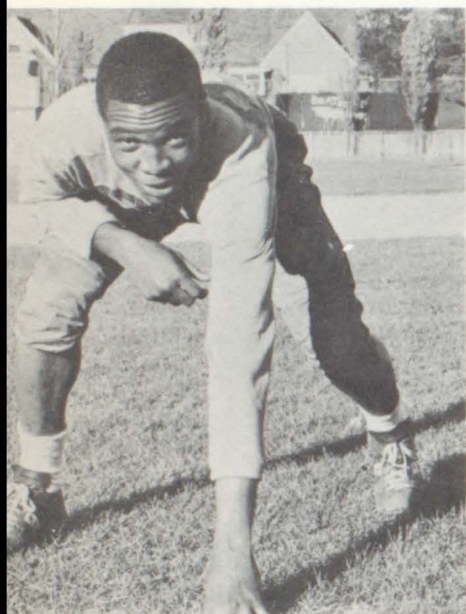

The Greek ideal of a sound body is adequately represented by the enthusiastic participation of many students in Weequahic's sports program. Athletes with Mercury's speed and Herculean strength and stamina participate in football, basketball, soccer, indoor and outdoor track, cross country, and baseball. The mermen of Neptune join our swimming team. Hellenistic culture has established this ideal which Weequahic athletes have so well honored.

## A black and white photograph showing a group of students, likely members of the Student Council, working together at a large table. There are about eight students in total. Some are seated around the table, looking at papers and writing, while others are standing in the background. The setting appears to be a classroom or a study area with large windows in the background. The students are dressed in casual attire typical of the mid-20th century.
